General Nash Elementary School

Discover and Explore
Science, Technology, Engineering and Math

The Nash Home and School Association is dedicated to meeting the needs of families who are looking for a safe, structured place for children to spend time after school. This program will be taught by trained instructors who will deliver a curriculum aimed at sparking a lifelong passion for learning.

Engineering For Kids brings science, technology, engineering and math (STEM), to kids in a fun and challenging way through classes, camps, clubs and parties. We are proud to inspire children to build on their natural curiosity by teaching engineering concepts through hands-on learning.

Upcoming Program at General Nash Elementary School

Aerospace Engineering: 3-2-1 Blast Off!

This class will introduce our young engineers to fundamental concepts of aerodynamics, propulsion, structural design and flight. Through open and focused exploration, students will use the engineering design process to construct and test parachutes, airplanes, rockets and more!

Apprentice Engineers (Grades 3 - 6): Thursdays (5/22, 5/29, 6/5, 6/12) 3:45pm - 4:45pm

Program Fee: \$80 (A portion of the proceeds will be donated back to the Home and School Association.)
